

FEARLESSLY MOVE FORWARD REFINING EXTRAORDINARY COURAGE

Time witnesses quality and safety wins trust. Yutong adheres to the exquisite bus manufacturing technology and gathers many leading technologies to ensure the reliability and durability of the whole vehicle in the entire life cycle as well as safe and stable operation.

Y.E.S vehicle electrophoresis

The whole vehicle has more than 10 years of anti-rust and the gloss of the paint is maintained for 5 years, making the whole vehicle looks like a new one after long-term use.

Improved vehicle reliability

Mainly promote Cummins powertrain, ZF gearbox, etc., with international brand quality assurance. Yutong's professional tuning improves the reliability and durability of suspension and axles, etc.

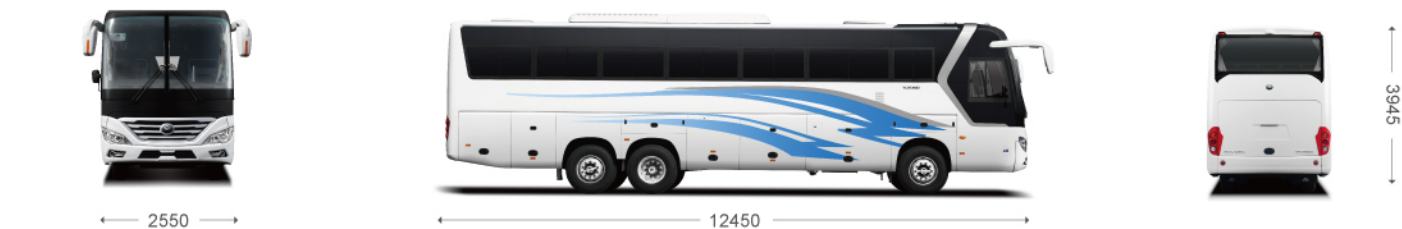

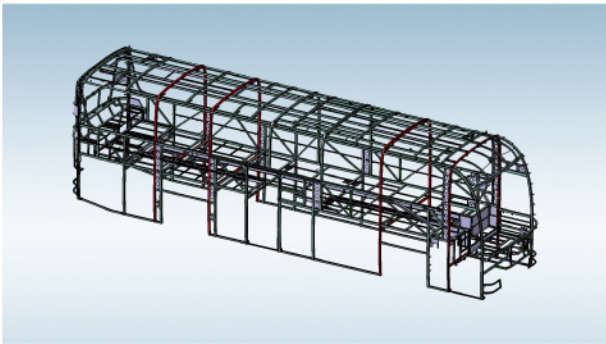

An external bumper on the front wall is optional to reduce the collision of the headlights and front wall components. Anti-insect net which is easy to disassemble: prevents mosquitoes, cotton wool, etc. from blocking the intercooler, radiator, etc., and reduces engine overheating failure.

Alloy steel closed ring body

The structure is scientific and stable while the steel has high strength,protecting the safety of passengers to the maximum extent.

Improved safety

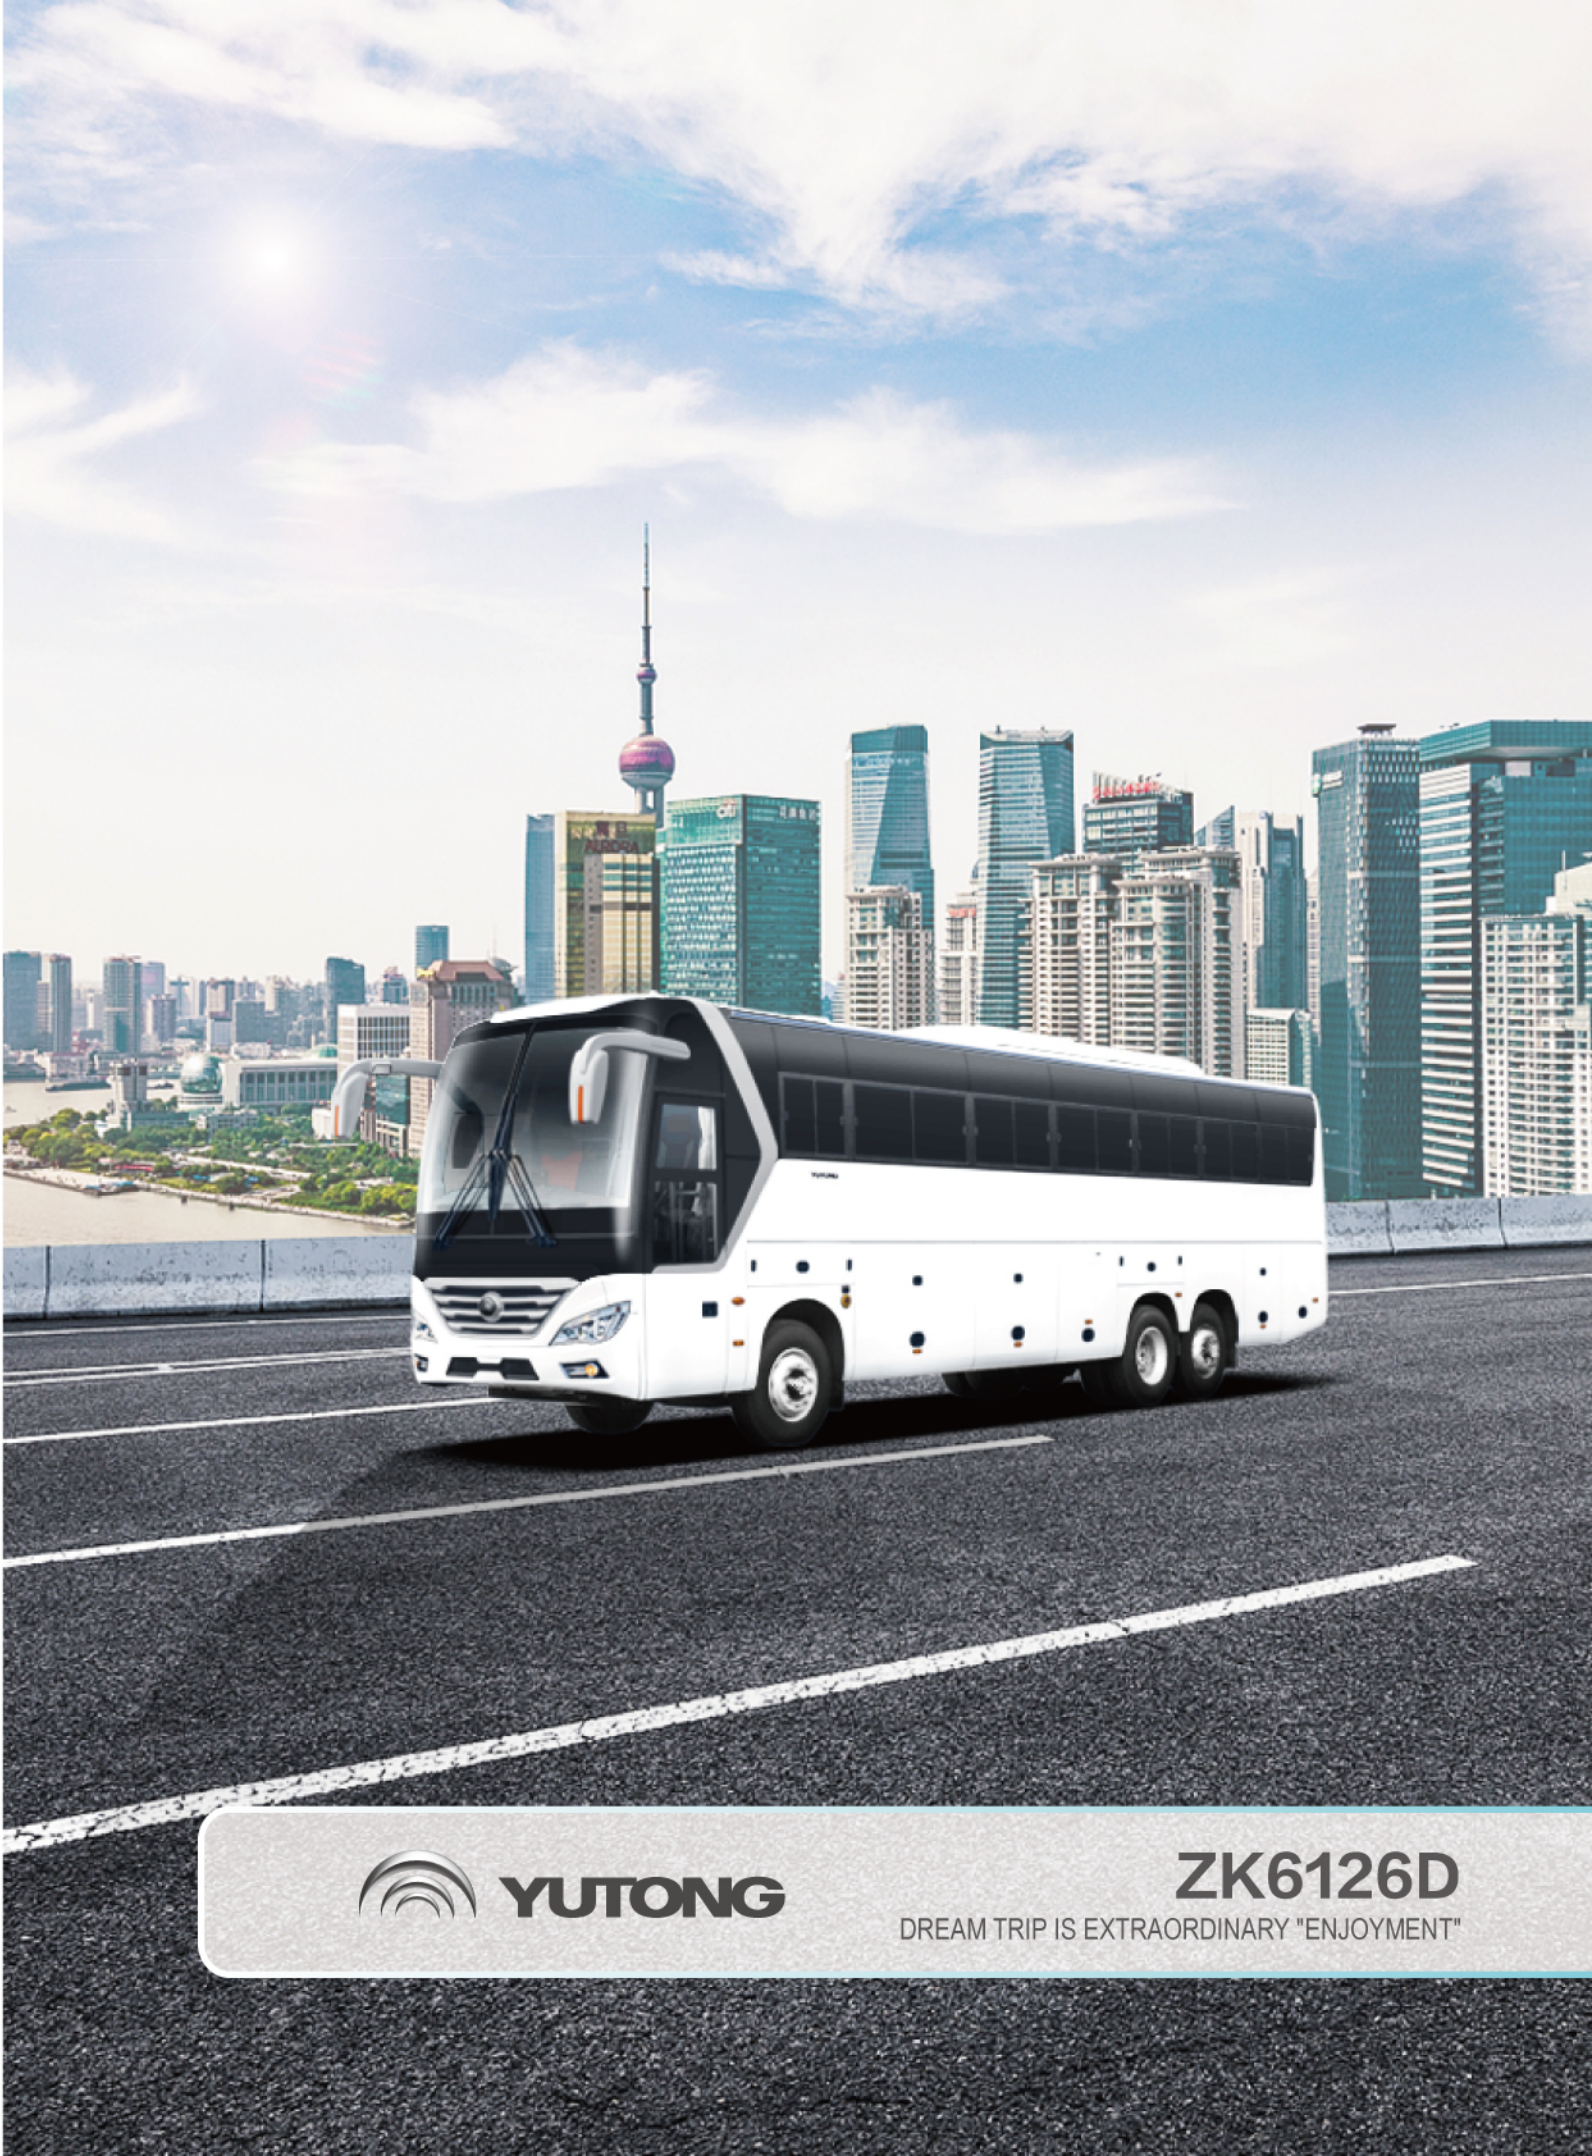

Automatic gearbox is optional to reduce the driver's labor intensity and effectively improve the safety of long-distance driving;

DREAM TRIP IS EXTRAORDINARY "ENJOYMENT"

Phantom of streaming light Tasting extraordinary temperament

The Yutong ZK6126D bus is upright and generous, with a natural temperament, showing Yutong's ingenuity and craftsmanship. The embedded LED light strip at night looks like a shooting star across the night sky. The charm is infinite and the audience will love it.

CALM AND WORRY-FREE ENJOYING EXTRAORDINARY ELEGANCE

With keen industry insights, Yutong comprehensively evaluates the actual needs of operators and forges products with user thinking. Every detail design of the ZK6126D bus is unique, making operation easy and elegant.

1. Control complex road conditions with ease

With an approach angle of 13° and a departure angle of 13°, it can easily pass through complex road conditions.

2. Operate long-distance lines with ease

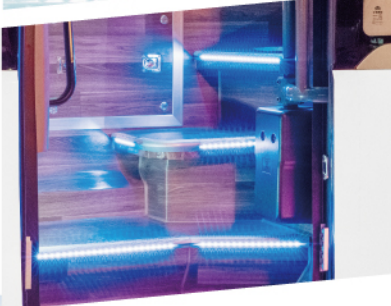

With optional 1000L large fuel tank and driving range over 2800KM, it can accomplish long distance operation

3. Easy access to passenger luggage

The maximum volume of the luggage compartment can reach up to 11.2m³ while the rear door of the rear wheel is added to facilitate the access of luggage.

4. Easy access to maintenance

The front wall can be turned over with a large opening angle of 127° and internal parts can be seen at a glance, which is more convenient for maintenance. Split front windshield, side windows and split rear taillights reduce maintenance man-hours and costs. Powertrains such as engines, gearboxes and axles are equipped with special large-area access ports.

Sensory awakening Creating extraordinary pleasure

Yutong ZK6126D bus, with its warm and gorgeous light and shadow atmosphere, colorful audio-visual entertainment as well as simple driving and control enjoyment, creates a travel space of sensory awakening for you with extraordinary pleasure.

1 Dark night charm blue stepping light

With enhanced night guidance, a wonderful journey is getting started.

2 Colorful diffuse atmosphere light

The light is soft and warm, the brightness of the whole vehicle is uniform and the color changes as you want thus the journey is colorful.

3 Ergonomic seat

The shoulder space is generous, the back is fully supported and the waist is curve-fitting, making the journey enjoyable.

4 Enjoy audio-visual entertainment throughout the journey

The seat can be equipped with USB interfaces optionally and there are 4 flip TVs under the luggage rack to accompany the happy journey.

Simple and comfortable driving

The use of mechanical shock-absorbing driver's seat reduces the labor intensity of the driver and makes driving more comfortable.
